***Allowable Subject Matter***

Claims 1-9 are allowed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In applicant's remarks of July 10, 2003, applicant submits that Figures 6A, 6B, 11, and 12A-12D are PRIOR ART in response to the office action of April 10, 2003. Corrected drawings were filed on July 10, 2003. However, Figure 11 does not show the amendment to the Figure described by applicant. The Examiner has attached a copy of Figure 11 with the changes marked "PRIOR ART". The remaining changes to the Figures are approved. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

The following is an examiner's statement of reasons for allowance:

After further consideration and searching, as well as consideration of applicant's remarks, the examiner concludes that the reference to the CIE 1976 UCS Chromaticity Diagram is not indefinite as it is a well-known standard in the art. The prior art neither shows nor suggests the relationship of the claimed coordinates to the coordinates in the chromaticity diagram.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
